

Fern

Task Chair Product Sheet

FERN

A NEW MOVEMENT

The Fern task chair seems alive, in tune with your every movement. Grounded in extensive ergonomic research, Fern's design puts the person at the center with ergonomic innovations that provide total back support, edgeless comfort, and free movement. The result is a next-generation sitting experience that is distinctively responsive to each person. The chair works with you, not against you so you can sit better, work better, and feel better in today's changing workplace.

It manages to accommodate a diverse working population with new levels of all-day comfort, regardless of size, posture, or work mode. More comfort means less distraction as you move or change posture. With no hard outer frame, Fern has a soft and pliable edge that won't jar you or limit your movement.

Fern provides a comfortable, engaging sitting experience that creates good feelings, keeping you balanced and centered in your chair. Its approachable design is less machine, more human, with mechanics discreetly integrated into the warm, residential aesthetic.

DETAILS

DESIGNED by Haworth Design Studio and ITO Design

FERN 3-point mechanism with back-stop in 5 positions

FORWARD TILT (optional)

LUMBAR SUPPORT – height adjustable (optional)

4D ARMREST

FLEXIBLE BACKREST instead of torsional rigidity

FERN

WAVE SUSPENSION

Fern's Wave Suspension™ system is the heart of the chair and the key to its back comfort and flexibility. From all appearances, the back looks simple, but inside is a high level of science, engineering, and innovation.

Cradle: The Cradle overlays the Fronds and Stem, working in concert with them for effortless support. The Cradle is supported by the Stem-and-Fronds structure, not a hard outer frame. As a result, Fern's Infinity Edge™ is soft and pliable for an edgeless comfort experience. Nothing interferes with movement to create discomfort and distraction.

Fronds: Each Frond is calibrated to support a different area of the back, from the thoracic (upper back) to the lumbar to the pelvic areas. Back support is as constant as a person's movement.

Stem: Inspired by the masterful design of a Fern, the Stem is a centered spine that supports a series of Fronds that extend like leaves.

PRODUCT

Fern
 3-point mechanism with back-stop in 5 positions
 4D- or Fixed armrests
 Flexible backrest instead of torsional rigidity

DIMENSIONS

Width 70 cm
Depth 66 cm
Height 109 – 122 cm
S-Height 41 – 53 cm

MATERIAL

Mesh back Coll. 40 (12 colors)
Seat Fabrics of European Colour Collection
Base aluminum silver powder-coated.
 Aluminum polished (optional)
